REACHING THE CITY FROM THE FRANCISCO SÁ CARNEIRO AIRPORT Metro

You can easily get to the city centre by metro. Line E (Purple) runs every 20 or 30 minutes, depending on the time and day of the week. You can buy your Andante ticket from one of the ticket machines (all have English instructions). The cost of a single journey is €2.55 and that includes the .60 cent rechargeable Andante card. Do not forget to validate your ticket before starting your journey (yellow machines at the base of the escalators or at the platform).
